

## GLITTER WALLPAPER INFORMATION

### PLEASE READ BEFORE APPLYING GLITTER WALLPAPER

Firstly, thank you for purchasing our glitter wallpaper. Your wall covering is fabric backed and encrusted with small and large glitter pieces creating an amazing glitter and sparkle effect, making this is the ultimate statement wallpaper!

Every effort is made to ensure your wallpaper reaches you in perfect condition. We do check each roll when it is cut for any faults or defects but we also ask you check your wallpaper, as on the odd occasion there can be faults.

The usage width of your wallpaper is 1.32 metres.

In the case of any faults being identified, you should contact us **BEFORE** hanging and we will arrange the return and replacement. Please note that once hung, we cannot refund you.

### FITTING TIPS

We are not professional decorators; therefore the information below contains best practises which have worked well for ourselves and our clients. This information should be viewed as a guide only. We always recommend having this fitted by a professional decorator.

- Your glitter wall covering should be hung in the same way as it comes off the roll. If this does not happen there will be a shading difference. It is very important that the glitter is running in the same direction, stand back and check there is no shading difference before applying to the wall
- You will need an extra strength ready mixed wallpaper adhesive that goes on the wall, not the paper
- Leave the paste to go tacky before adding your glitter wall covering
- If more than one width of wallpaper is being fitted, decorators recommend that the wall covering should be overlapped and spliced
